1 Introduction

Every degree programme is required by law to have Teaching and Examination Regulations. These Regulations contain provisions relating to the teaching of the degree programme and the associated examinations and interim examinations. You can find the latest Teaching and Examination Regulations for your degree programme in the course catalogue for your degree programme under '*Programme details*'.

1.1 Organisation of this document

Chapter 2 **Teaching** outlines the objectives of the programme, the associated exit qualifications and the way in which teaching is structured. It also provides an overview of the curricula offered by the programme, including any specialisations, and information on the student counselling. It also contains provisions relating to minors and progression to the main phase.

Chapter 3 **Interim examinations and partial examinations** describes all aspects of assessment: format, order, number of attempts, marking, inspection, etc. This chapter also describes how credits are obtained, the period of validity of results and exemptions, and special arrangements for students with a disability or language deficiency.

Chapter 4 **Rules governing conduct during interim examinations** describes the rules students must comply with when sitting interim examinations or partial examinations, what we understand by fraud and plagiarism and what the procedure is if fraud or plagiarism is suspected.

Chapter 5 **Study advice** contains provisions relating to the binding study advice and the consequences if you fail to reach the level you are required to reach by the end of the first year of your studies.

Chapter 6 **Examinations, first-year certificate and degree certificate** contains provisions relating to the certificates obtained at the end of the first year and the main phase and explains how you qualify for the classification 'cum laude' (with distinction).

Chapter 7 **Examination Board and Appeals Board** lists situations where you should contact the Examination Board and specifies when you may lodge an appeal with the Examination Appeals Board (COBEX).

Chapter 8 **Validity of Teaching and Examination Regulations** indicates who and what the Teaching and Examination Regulations apply to, how long they are valid for and how they are adopted.

Chapter 9 **Testing programmes** gives an overview of all the modules in the curricula offered by the degree programme, indicating the number of credits, the methods of assessment and when the examinations take place.

Chapter 10 **Definitions** explains the key terms used in the document.

Where 'she' is used, we also mean 'he'.

1.2 Relevant sources of information in addition to the Teaching and Examination Regulations

- **Students' Charter:** sets out all the rights and obligations of students and prospective students. The Teaching and Examination Regulations form part of the Students' Charter.
- **Course catalogue:** the digital information source containing all relevant information on the degree programme and the modules.
- **Interim examination protocols:** detailed rules governing how interim examinations and partial examination are administered.
- **Code of Conduct for Student Counsellors:** guidelines for the professional conduct of student counsellors.
- **Studying with a disability:** details of the special arrangements available for students with a disability.
- **Top-level Sports Regulations:** contains details of the special arrangements available for students who are top-level athletes.
- **Entrepreneurships Regulations:** contains details of special arrangements available for students who are entrepreneurs.
- **AUAS Testing Policy:** AUAS agreements on quality and quality control of assessment.
- **Examination Board Regulations:** these govern the composition, tasks and procedures of the Examination Board (only available in Dutch).
- **Selection list of the Netherlands Association of Universities of Applied Sciences:** contains rules governing retention times for examinations and certificates (only available in Dutch).
- **Privacy Policy:** contains the measures of the AUAS with regard to the General Data Protection Regulation (AVG) and the Data Protection Act (Wbp), (only available in Dutch).

Supplement with faculty or degree programme sources where appropriate.

1.3 Information on admission requirements

The general admission requirements for the Bachelor's programme are set out in the Students' Charter. The specific admission requirements for the various curricula of the Bachelor's programme can be found in the course catalogue.

2 Teaching

2.1 Objectives of the degree programme

1. During the course of the degree programme, students will acquire knowledge, opinions and skills in the field of

Sport studies - track International Sports, Management and Business.

On completion of the degree programme, students can start working as junior professionals in the professional field of the degree programme. They will be independent, critical thinkers who are capable of operating in an urban, creative and innovative context.

2.2 Exit qualifications of the degree programme

1. On completion of the degree programme, students will have the following exit qualifications:

Competencies Sport Manager

1. SM&O and ISMB graduates display a passion for sport in word and deed.
2. SM&O and ISMB graduates lead and inspire.
3. SM&O and ISMB graduates work like a businessperson.
4. SM&O and ISMB graduates act entrepreneurial, research-minded and culturally sensitive.
5. SM&O and ISMB graduates create a sustainable sport, work and business environment.
6. SM&O and ISMB graduates respond actively to developments in the World of Sport.
7. SM&O and ISMB graduates preserve and protect the quality of sport programmes.
8. SM&O and ISMB graduates develop and implement strategy and policy.
9. SM&O and ISMB graduates are authentic, autonomous, and self-motivated individuals.
10. SM&O and ISMB graduates base their actions on a vision on sport.

2.3 Curricula offered by the programme

1. The programme offers the following curricula:

Programme	Name programme	Number of credits	FT/PT/Dual education
Propedeuse	Sport studies - track International Sports, Management and Business	60	FT
Main phase	Sport studies - track International Sports, Management and Business	180	FT

[additional text]

2.4 Structure of curricula

1. An academic year is sub-divided into 4 blocks of 10 weeks and an extra fifth block of 8 weeks in the summer period or 2 semesters of 20 weeks and an extra period of 8 weeks in the summer period.
2. All the modules in the various curricula are listed in Chapter 9. The following details are specified for each module:
 - a. the name of the module;
 - b. the number of credits;
 - c. the method of assessment for all interim examinations and partial examinations for the first and second attempts;
 - d. the week/block in which the interim examination(s) and/or partial examinations are offered, for both the first and the second attempt.

2.5 Education format

Programme built on competences

Upon graduation ISMB students have not only acquired subject knowledge and applied knowledge, they are also capable of investigating problems and developing their knowledge independently. They have gained the social and communication skills which are essential to be successful in their professional careers. They are self-reflective and able to initiate and achieve innovations.

Programme built on relevant situations

The ISMB educational programme focuses on real-life professional situations. These situations are always viewed in terms of sport itself and from a perspective that combines the market, finance, economics, HR, marketing, policy and organisation. These real-life professional situations become increasingly complex and advanced in due course. Two out of the three major internships have to be organized out of the students' comfort zone, which means in another country where they have not lived before.

Practicing sports in the programme

Working in the sports sector calls for an affinity with sports, which is why actively participating in sports as well as learning about them in theory, is an essential part of the programme. Practicing sports is also used as a metaphor for educating inspiring leadership. Actively participating in sports is part of the programme because it teaches a number of management skills, such as teamwork, personal presentation, leadership, and conflict resolution, in both theory and practice.

Management and entrepreneurship

The young professional sports manager -entrepreneur needs to have the necessary competences within the framework of sports institutes. He/she/x must be an excellent general manager and have an entrepreneurial attitude. Keywords within these competences are business administration, public administration, organizational theories, marketing and business plans, concept and product development, future strategies and financial accounting.

Although students are trained to become proficient in translating theory into practice, ISMB believes that academic knowledge is essential for highly qualified sports managers. The programme of ISMB provides a

broad perspective by using various theoretical techniques and approaches. Research is an essential part of the curriculum. Students are required to develop an independent, well-founded vision. ISMB educates managers and entrepreneurs that can develop the course and direction of sports in the future.

2. The degree programme is delivered in English. There may be exceptions to this rule.

2.6 Evaluation of teaching

The education is evaluated every semester with students and teachers, under the direction of the students representative counsel. The programme committee supervises the organisation of student evaluations and provides feedback to lecturers and the managementteam.

In addition, a dashboard has been set up that shows the results of the courses. This makes it easy to see how students are performing within the various years. This dashboard is only available to teachers.

There are also regular learning-stream meetings. Each learning-stream has its own coordinator, who is a member of the management team of ISMB. The purpose of these meetings is to exchange knowledge, discuss the assessments and the development and improvement of the learning stream. Teachers are also represented in these meetings and are usually part of several learning stream and are involved in learning stream meetings. This ensures constructive coordination of curriculum expectations and the intended level of attainment for each learning stream.

In addition to curriculum meetings, there are several study days per academic year during which education is evaluated across the board. To guarantee the graduation level, regular calibration sessions take place with all the graduation lecturers. The examination committee carries out its own evaluation of graduation projects by means of random samples every year in the context of quality assurance.

2.7 Student counselling

1. The programme manager will ensure that individual student counselling with regard to progress in terms of professional skills and professional development is provided for all students.

2. Students should contact their student counsellor if they have problems of a personal nature, whether or not these are directly connected with their studies. Student counsellors are bound by the provisions of the Code of Conduct for Student Counsellors.

2.8 Track aimed at achieving a higher knowledge level

1. The degree programme does not offer a track aimed at achieving a higher knowledge level.

3. At the end of the first and second years of a track aimed at achieving a higher level of knowledge, the Examination Board may decide that the student cannot continue the track. This will be the case if, during the main phase of the programme, the student fails to meet the requirements relating to the continuation of studies applicable to the track aimed at achieving a higher level of knowledge.

4. If a student is not permitted to continue the track aimed at achieving a higher level of knowledge, she may continue the standard four-year Bachelor's degree programme. Students who have not yet successfully completed their first year will continue to be governed by the rules on study advice contained

in Chapter 5.

2.9 Minors

1. The minor structure consists of 30 credits and forms part of the main phase. Students may commence a minor if they have successfully completed their first year programme and have obtained a certain number of credits from the main phase. (This does not apply to students who are on a three-year fast-track programme for school-leavers at pre-university level).

The number of credits for the main phase is: 40.

2. Students can select a minor from:

- the range offered by the AUAS;
- the range offered by higher education institutions affiliated to Kies Op Maat (KOM), as listed on the website www.kiesopmaat.nl;
- the (transfer) minors offered by a higher education institution that is not affiliated to KOM;
- the minors offered by a higher education institution abroad.

The minor that a student chooses should not resemble other components of the degree programme with regard to content and level. The student must submit his/her choice of minor to the Examination Board of his/her degree programme for approval.

Institutions that offer minors may have specific entry requirements for one or more of their minors.

If a minor is designated as a track aimed at achieving a higher level of knowledge, article 2.8 will also apply.

The minors offered by the AUAS will be posted on the minors website by 1 March preceding the academic year concerned at the latest.

3. Exemption for the minor is possible for students who have acquired 30 credits of a main phase of another hbo or wo degree programme and whose content, scope and level should not resemble other components of the current degree programme (see article 3.11).

2.10 Special arrangements for students with a disability

1. Students who have special needs due to a disability or chronic illness are entitled to tailored, suitable or necessary adjustments, except where such adjustments would place a disproportionate burden on the AUAS.

2. The programme manager will endeavour to offer students with a disability a learning environment that is equal, wherever possible, to that available to students without a disability and that offers equal opportunities for academic success. In the event of a request for a special arrangement, the programme manager will take the advice of the student counsellor. See also: Studying with a disability.

3. The adjustments must eliminate or reduce impediments and foster the student's independence and full participation as far as possible. Such adjustments may relate to:

- a. the accessibility of buildings;

- b. the curriculum, including work placements;
- c. course timetables;
- d. teaching methods, including supervision;
- e. teaching materials; and
- f. assessment (see also article 3.13).

2.11 Progression from propaedeutic phase to main phase

1. Students will be admitted to the main phase of the degree programme if they have passed the propaedeutic examination (see Chapter 6).

In addition to this, the Board of Examiners automatically grants permission to student who are enrolled in the propedeutic year to follow courses and take interim exams of the main phase in case:

- 1. they have not yet passed the first-year examination but have obtained at least 50 credits (see Chapter 5);
- 2. their study advice has been suspended due to personal circumstances (see Chapter 5).

In addition, the Examination Board can grant permission to propaedeutic students in a fast-track program to follow courses in the main phase.

- 2. Students have access to all the specialisations listed in article 2.3.
- 3. The programme manager will give the student an opportunity to make his/her views known before making a decision. When making a decision, the programme manager will take the student's personal circumstances into account (see article 5.4).

2.12 Progression to a master's degree programme

Not applicable.

3 Interim examinations and partial examinations

3.1 Format

1. Each module concludes with an interim examination. An interim examination for a module may comprise several partial examinations. Chapter 9 lists the testing programmes. These specify the method of assessment for the interim examinations or partial examinations for each module, for both the first and the second attempt.
2. The adopted testing programme (including timetable) may be amended by the programme manager due to exceptional circumstances or for urgent reasons and with advise of the Degree Programme Committee and the assent of the Faculty Representative Advisory Council.
3. Based on the agreed testing programmes, the programme manager will ensure that the course catalogue specifies the learning objectives and study materials for each individual interim examination or partial examination, so students can prepare themselves as well as possible. The course catalogue will also specify whether examinations can be offset and/or weighed.
4. Students obtain an individual mark in an interim examination that is conducted jointly by a group of students. Students can receive a group mark during a partial examination.

3.2 Sequential order

1. Chapter 9 Testing programmes specifies in which block or week the interim examinations or partial examinations will be held for each module.
2. Where applicable, the testing programmes will also indicate whether:
 - a. a particular number of credits is required for participation in interim examinations and/or partial examinations for specific modules;
 - b. certain modules must be passed before students can participate in specific modules.

3.3 Number of attempts

1. Each academic year, students have two opportunities to complete a module in the first-year phase or main phase. In the case of work placements and long-term assignments where a resit cannot take place in the same year, the programme manager may decide to offer students only one opportunity to complete a module in the same academic year.
2. If there is reason to do so based on a student's personal circumstances (see article 5.4), the Examination Board may decide to deviate from the limitation in the number of times a student can retake an examination in a way that is advantageous for the student. The Examination Board will seek advice from the student counsellor and, in case of personal circumstances, from the relevant lecturer and/or student counsellor before making a decision.

3. If a module is no longer offered, the degree programme will offer students a further two opportunities to take an interim examination or partial examination for this module in the following year.
4. If a student fails a module in the academic year in which she took the module and wishes to retake an interim examination or partial examination for that module the following academic year, the requirements imposed will be those that apply to the current academic year.

3.4 Examination timetable

1. The program manager determines when the interim examinations take place (see Chapter 9). When setting the dates for the interim examinations in an academic year, the workload placed on students by the curriculum as a whole is taken into account. The fifth block can be used for second opportunities (resits).
2. The examination timetable must be finalised and made known to students at least two weeks before the start of the relevant block.
3. Students who fulfil the criteria of AUAS' Top-level Sports Regulations or Entrepreneurship regulations may be eligible for a special examination timetable.

3.5 Arrangement and mandatory participation in practical components

The following modules contain practical components:

Module	Arrangement (details in Chapter 9)	Mandatory participation y/n
Sports subject year 1	Required to train management skills.	Yes
Sport subjects year 2	Required to train management skills.	Yes
PPD/ICC	Required to develop personal skills and intercultural skills and competencies.	Yes
Events	Required to train and develop organizing skills.	Yes
Field trips	Required to develop personal skills.	Yes
Project weeks	Required to develop personal and management skills.	Yes

2. Where modules involve mandatory participation, the course catalogue will specify the rules governing as a requirement for participation in the interim examination and/or partial examination.

3.6 Oral interim examination and/or partial examination

1. An oral interim examination and/or partial examination will always involve two examiners.
2. If, for organisational reasons, this is not practical, an exception may be made to this rule (except in the case of graduation modules). In that case, the oral interim examination and/or partial examination will have to be recorded.

3. An oral interim examination and/or partial examination is not open to the public, unless the Examination Board decides otherwise.

3.7 Standardisation of assessments

1. Interim examinations for all the degree programme's modules, including minors and modules from tracks for achieving a higher level of knowledge, will be awarded a mark between 1 and 10, with a maximum of one decimal place.

2. Partial examination will be awarded a mark between 1 and 10, with a maximum of one decimal place, or will be marked as 'pass' or 'fail'. The course catalogue indicates how such qualitative assessments are weighted when calculating the mark for the module.

3. A student's assessment result in an interim examination is deemed to be satisfactory if the mark allocated is - not rounded off - 5.5 or higher. A student's assessment result in a partial examination is deemed to be satisfactory if the mark allocated is - not rounded off - 5.5 or higher or if the student obtains a 'pass'. No rights can be derived from partial examinations.

4. If the interim examination comprises two or more partial examinations, the marks for which can be offset against each other, the student will pass the module if the weighted average of the partial examinations is - not rounded off - 5.5 or higher.

4b. The results of partial examinations taken during integrated resits (second opportunity) will lapse at the end of the relevant academic year.

5. Offsetting of marks between modules is not permitted.

6. Where requested by the student, the results of any modules that the student has taken at an institution abroad that form part of the student's degree programme may be converted into marks on a scale of 1 to 10 by the Examination Board, based on the available grading table of the foreign institution and that of the AUAS.

7. On completion of a module, the highest (rounded) grade achieved will determine whether or not the student has passed the module.

3.8 Recording and announcement of results

1. Interim examinations and partial examinations are assessed individually for each student. The mark is determined by the examiner or examiners.

2. The result of an interim examination or partial examination will be published in SIS no more than 15 working days after the examination date or submission date. For the reviewing period will be taken in account the date of the resit.

3.9 Allocation of credits

1. The student will be deemed to have passed the module and the relevant credits will be allocated if the student has obtained a passing mark for the interim examination. Credits will not be awarded for passing

partial examinations.

2. Where a student is granted an exemption for a particular module, she will be deemed to have passed that particular module and the corresponding credits will be allocated.

3. The date of the interim examination or the last partial examination that resulted in successful completion of the module will be treated as the date on which the credits were obtained. For exemptions applies the date the exemption was granted.

3.10 Inspection

1. The student may inspect a marked interim examination or partial examination and the mark scheme used up to at least 15 working days after publication in SIS. When the resit (second opportunity) is planned soon after the first examination, the inspection session is planned at least 5 working days before the resit.

2. If the student is not able to participate at that time, she may request the Examination Board to inspect the marked interim examination or partial examination at another moment. The Examination Board decides when the inspection is possible.

3. The right to inspection expires with the expiration of the storage period.

3.11 Granting of exemptions for (parts of) modules

1. The Examination Board is authorised to grant exemptions to students:

a. if they have passed examinations at other higher education institutions whose content, scope and level are deemed by the Examination Board to correspond in sufficient measure to (parts of) the module for which the student wishes to be exempted;

b. if they have passed examinations from the following related senior secondary vocational education (MBO) programme port en Bewegen niveau 4, CIOS niveau 4 or other related programme, whose content, scope and level is deemed by the Examination Board to correspond in sufficient measure to the module for which the student wishes to be exempted.

2. Students wishing to be considered for an exemption must submit a motivated and substantiated request to that effect in writing to the Examination Board before the teaching of the module for which exemption is being requested begins. The request must be accompanied by documentary evidence indicating that the student has already satisfied the requirements for the modules for which an exemption is being requested.

3. The validity period of an exemption granted for (parts) of the module of the main phase is unlimited in principle, unless the exemption has been granted in respect of one of the modules listed in Section 9.7.

4. The Examination Board will determine, on the basis of the evidence submitted, whether the student has met the requirements of the relevant module.

5. The Examination Board will grant a request for exemption if, in its opinion, the student meets the requirements of the relevant module or parts thereof. The Examination Board will inform the student of

its decision by digital means within four weeks of the date on which the request was received.

6. Exemptions will be listed with the description 'VR' in the examination results summary in SIS. A partial examination for which the student has been granted an exemption will not count towards the average final grade for the module of which this partial examination forms part.

3.12 Validity

1. In principle exam results and exemptions granted in the main phase have an unlimited period of validity.

3.13 Disabilities

1. The Examination Board may grant students disability modifications regarding assessment procedures. A student with a disability who would like to seek modifications to the assessment procedure, first contacts the student counsellor for consultation and then submits a substantiated request to this effect to the Examination Board. This request must be accompanied by a recommendation from the student counsellor. See also: Studying with a disability (A-Z-list).

3.14 Language deficiency

1. A student with a language deficiency because she has grown up abroad and who follows a degree programme that is delivered in Dutch may ask the Examination Board for an extension to the length of the examination and/or to be allowed to use a non-digital dictionary when taking interim examinations or partial examinations in the first and second year of enrolment. The student first contacts the student counsellor for consultation and then submits a substantiated request to this effect the Examination Board. This request must be accompanied by a written recommendation from the student counsellor.

This article is not applicable to degree programmes that are fully delivered in English.

4 Rules for sitting interim examinations and partial examinations

4.1 Registration examinations and partial examinations

1. The faculty determines whether and how students must register for interim and partial examinations, on the first and second opportunity (resit).

4.2 Sitting interim examinations and partial examinations

1. When sitting interim examinations and partial examinations, the provisions of the interim examinations protocols and guidelines and instructions of the study program/faculty apply. These guidelines and instructions must clearly state that, and in what way, the privacy of the testing student is guaranteed.

2. For digital examinations, the examination takes place in accordance with the requirements of security and privacy rules as laid down in the GDPR. For further information, please check the subject of privacy on Amsterdam University of Applied Sciences website:

<https://az.hva.nl/en/employees/az-lemmas/employees/auas/legal-affairs/privacy/>.

4.3 Own/individual work

1. Students will sit the interim examination or partial examination individually and may use the permitted study aids when doing so. Group assignments are an exception to the rule of individual interim examinations and partial examinations.

2. Students must always submit their own work in interim examinations and partial examinations. When citing the work of others, students must apply the agreed rules for source acknowledgement.

3. If a student contravenes one or more of the provisions of articles 4.4 and 4.6, she will be deemed to have committed plagiarism and/or fraud.

4.4 Definition of plagiarism

1. Plagiarism means:

a. using or copying someone else's texts, data, ideas or images without a full and correct acknowledgement of sources;

b. presenting the work of others as own work;

c. not indicating clearly in the text, for example through the use of quotation marks or a specific layout,

- that the text contains literal or near-literal quotes, even if sources have been acknowledged correctly;
- d. paraphrasing the content of someone else's work without adequately acknowledging sources;
 - e. copying (parts of) media files or other sources, software source codes, models and other diagrams of third parties without acknowledgement, thereby passing them off as your own work;
 - f. submitting a text that has been submitted previously, or a similar text, for assignments of other programme modules without acknowledging the source;
 - g. copying the work of your peers and passing it off as your own work;
 - h. submitting documents that have been acquired from a commercial institution or that have been written by someone else, either in exchange for payment or otherwise.
2. Depending on the actual circumstances of the particular case, other conduct may also be treated as plagiarism.
3. A student will be deemed to be complicit if fellow students copy his/her work with the student's consent and/or cooperation.
4. All authors are responsible for the entire jointly written paper. If one of the authors of a jointly written paper commits plagiarism, the other authors will be deemed to be accessories to plagiarism if they could have known that plagiarism had been committed.
5. No intention is required for determining plagiarism as referred to in the chapter.
6. In case of plagiarism in a concept work, the Examination Board can apply article 4.7, paragraph 3.

4.5 Detection of plagiarism

1. The examiners and the Examination Board are authorised to check submitted work for plagiarism and, to that end, may use plagiarism detection programs. By submitting a text to be assessed, the student gives his/her implicit permission for the text to be included in the database of the detection programme concerned.

4.6 Definition of (serious) fraud

1. Fraud means any act, omission or attempt at or admission of behaviour that fully or partially prevents a correct and fair assessment of a person's knowledge, insights and skills or (professional) attitude from being made. Fraud includes:
- a. using aids other than those allowed during an interim examination or partial examination;
 - b. copying during the interim examination or partial examination or exchanging information;
 - c. pretending to be someone else during the interim examination or partial examination;
 - d. being represented by someone else during the interim examination or partial examination;
 - e. taking possession of the assignment or assignments of the interim examination before the date or time the examination concerned is due to take place;
 - f. inventing and/or falsifying survey results, interview responses or research data.

2 Fraud can involve an interim examination or partial examination that the student is taking themselves, as well as allowing other students to act in a fraudulent manner.

3 Fraud as described under letters c. and d. in this article and plagiarism as described under letter h. in article 4.4 will in any case constitute serious fraud. Repeated fraud will be marked as serious fraud.

4 Depending on the actual circumstances of the particular case, other conduct may also be treated as fraud.

5. No design is required for determining fraud as referred to in the chapter. Suspected fraud may be established before, during or after an interim examination or partial examination. An example of suspected fraud being established after the examination is if, during the marking process, two or more students appear to have given identical or virtually identical answers, including incorrect answers, to a large proportion of the questions.

4.7 Procedure in the event of fraud and/or plagiarism

1. If there are serious grounds for suspecting that a student is guilty of fraud or plagiarism, the examiner or invigilator will notify the Examination Board.

2. The Examination Board will decide whether the student is actually guilty of fraud, including serious fraud, or plagiarism. If that is the case, the Examination Board will notify the student in writing, specifying the associated sanctions. Before reaching a decision, the Examination Board will give the student the opportunity to be heard, within a period of ten working days from notification. The student will be informed on the written notification of the examiner or invigilator before the hearing takes place.

3. If the student is found guilty of fraud or plagiarism, the Examination Board may prevent the student from taking certain interim examinations and/or partial examinations for a period of a maximum of one year. In the case of serious fraud the Examination Board may recommend to the dean that the student's enrolment be terminated.

4. If the student is found guilty of fraud, the Examination Board may decide to check work submitted previously by the student concerned for fraud and, if fraud is detected, to impose sanctions.

5. If the fraud has been established as an indisputable fact, it will be recorded in SIS by 'FR' that the student has taken the interim examination or partial examination, but has not been awarded a mark due to fraud. The submitted work is declared invalid. Work that has been declared invalid may only be resubmitted if the Examination Board gives permission for this.

5 Study advice

5.1 Advice on continuation of studies after the first-year of enrollment

1. At the end of each student's first year of enrolment in the propaedeutic phase of the degree programme, the Examination Board, on behalf of the Executive Board, will provide the student with study advice regarding their continuation within the degree programme.

2. This study advice will be emailed to the student no later than 24 August. For students who were admitted in February, the ultimate date is 24 February instead (in both cases of the calendar year in which the advice is provided).

3. The study advice has a binding negative character for students who, taking into account their personal circumstances (see article 5.4), have earned fewer than 50 credits for modules in their first year. Results obtained through exemptions count towards the credit minimum.

4. Students who have terminated their enrolment in the degree programme during the course of the first year of their studies will receive a study advice for their first year at the end of that year. This may be a negative binding study advice unless, based on the student's personal circumstances, the Examination Board believes that a negative binding study advice should not be issued. Article 5.5 applies in this situation.

5.2 Suspension of study advice propaedeutic phase

1. If at the end of the first year of enrollment for the propaedeutic phase the Examination Board can not form an opinion on the suitability for the programme due to the student's personal circumstances, it may decide not to issue a study recommendation in the first year of enrollment.

2. In this case the study advice is suspended to the end of the second year of enrollment. The student will receive a notification from the Examination Board by e-mail.

5.3 Advice on continuation of studies after the second year of enrollment

1. In case of suspension, the study advice will be issued no later than the end of the second year of enrollment. This has a negative binding character if the student, with due observance of her personal circumstances, did not pass the propaedeutic phase at the end of her second year of enrollment.

2. Study advice issued in the second year will follow the same procedure as the one followed for the issuing of standard study advice.

5.4 Personal circumstances

1. Personal circumstances include:

- a. illness;
- b. disability;
- c. pregnancy;
- d. exceptional family circumstances;
- e. top-level sport;
- f. membership of the Central or Faculty Representative Advisory Council or Degree Programme Committee;
- g. membership of the board of a AUAS-acknowledged student organisation.

2. The student must communicate such personal circumstances in good time with the student counsellor. The student counsellor provides advice to the Examination Board.

5.5 Conditions governing study advice

1. Binding negative study advice cannot be issued if the student has not received at least one email from the degree programme in good time via email during the course of the academic year, warning him/her of the fact that she may receive a binding negative study advice and of what the associated consequences will be.

2. The Examination Board will only decide whether or not to issue binding negative study advice to a student after the student counsellor has been consulted about the personal circumstances that the student has discussed with the student counsellor (see 5.4).

3. The student counsellor will only issue a written recommendation if the student has notified the student counsellor about these personal circumstances in a timely manner. In this context, notification is deemed to be timely when it is given as soon as the circumstances occur or very soon thereafter.

4. Before issuing binding negative study advice, the Examination Board will allow the student to be heard.

5.6 Consequences of binding negative study advice

1. A student who has received binding negative study advice can no longer be enrolled as a student in the same degree programme at the AUAS.

1a. The above provision applies to all specialisations listed in 2.3 and, where applicable, to the Associate degree programme.

2. After a year, a student who has received a binding negative study advice may apply for enrolment in the same degree programme or in another degree programme to which the binding negative study advice applies. The Examination Board will only approve such an application if the student concerned can make a

reasonable case that she will be able to successfully complete the degree programme within a reasonable period of time.

6 Examinations, first-year certificate and degree certificate

6.1 Examinations

1. The propaedeutic phase and the main phase both end with an examination. Students are deemed to have passed the examination if they have successfully completed all the modules for the relevant phase or programme, or an exemption has been granted for them.
2. Students can only pass the examination in the main phase if they have passed the propaedeutic examination or have been granted an exemption for it.

6.2 First-year certificate and degree certificate

1. The Examination Board will issue a first-year certificate and list of results to students who have passed the first-year examination and a degree certificate and list of results to students who have passed the examination in the main phase. Students who have been granted exemption for the entire first-year phase will not receive a first-year certificate.
2. If the student has successfully completed an honours track (intracurricular or extracurricular or honours minor), this will be specified on the degree certificate. The name of the track will be specified on the list of marks.
3. The marks on the list of marks will be of one decimal place.
4. In addition to the list of marks, students will also receive a diploma supplement in English with their degree certificate.
5. The graduation date recorded on the first-year certificate or degree certificate will be the month in which the student sat his/her last interim examination.
6. A student may ask the Examination Board to delay the issuing of his/her degree certificate.
7. In case of a name change the student can receive a new certificate - on request - after handing in the original certificate.

6.3 Degree

1. The Executive Board will award a Bachelor of Arts degree to students who have passed the examination in the main phase.

6.4 Calculation of average mark and 'cum laude' requirements

1. The average final mark for the first-year phase or the main phase is the weighted mathematical average of all the marks obtained in the interim examinations in the first-year or main phase (see: A-Z list).

2. Modules for which the student has been granted an exemption and extracurricular modules will not be included when calculating the weighted average final mark.
3. If an exemption has been granted for more than a third of the credit points of the curriculum in the first-year or main phase, a student will not receive an average mark and cannot be awarded a 'cum laude' degree (a degree with distinction).
4. Students will be eligible to have the words 'cum laude' recorded on their first-year certificate if they meet the following requirements:
 - a. They have successfully completed their first-year phase within a maximum of one year.
 - b. The weighted average final mark of their interim examination results for all the modules on the list of marks for the first-year examination is at least an 8.0 (not rounded up to).
5. Students will be eligible to have the words 'cum laude' recorded on their degree certificate if they meet the following requirements:
 - a. They have successfully completed the degree programme within the nominal study period plus one year.
 - b. The weighted average final mark of the interim examination results for all the modules on the list of marks for the main phase is at least an 8.0 (not rounded up to);
 - c. the student has passed the graduation project module with a mark of at least 8.0 (not rounded up to).
 - d. the student has never been found guilty of plagiarism or fraud.
6. Students will be eligible to have the words 'summa cum laude' recorded on their degree certificate if they meet the following requirements:
 - a. The student has successfully completed the degree programme within the nominal study period.
 - b. The weighted average final mark of the interim examination results for all the modules on the list of marks for the main phase is at least an 9.0 (not rounded up to);
 - c. the student has passed graduation project with a mark of at least 9.0 (not rounded up to);
 - d. the student has never been found guilty of plagiarism or fraud.
7. The Examination Board assesses whether to confer the designation 'cum laude' or 'summa cum laude'.

6.5 Statement

1. Upon request, a student who has passed more than one interim examination, but who cannot be awarded a first-year certificate or degree certificate, may be issued with a statement from the Examination Board that specifies the examinations that she has passed.

7 Examination Board and Appeals Board

7.1 Contacting the Examination Board

1. Every degree programme has an Examination Board. The Examination Board determines, in an objective and expert manner, whether or not the student meets the requirements of the Teaching and Examination Regulations and the exit qualifications for the degree programme.
2. Amongst others, students may contact the Examination Board with regard to the following requests:
 - a. to be exempted from one or more interim examinations and/or partial examinations (see article 3.11);
 - b. to take an additional interim examination or partial examination (see article 3.3);
 - c. to extend the period of validity of an interim examination or partial examination that they have passed (see article 3.12);
 - d. to approve their choice of minor (see article 2.8);
 - e. for special arrangements to be made with regard to tests on account of a disability or chronic illness (see article 3.13);
 - f. for a longer examination time and permission to use a dictionary in the case of a language deficiency (see article 3.14);
 - g. for a revised examination timetable if the student is involved in top-level sports or entrepreneurship (see article 3.4).
 - h. if applicable, the approval for the composition of a study program.

7.2 Lodging an appeal with the Examination Appeals Board (EAB)

1. Students may lodge within six weeks an appeal with the Examination Appeals Board (EAB) if they do not agree with a decision made by the Examination Board or by an examiner or examiners. Further information on EAB and how students can lodge an appeal can be found in the *Legal protection of students* of the Students' Charter.

8 Validity of Teaching and Examination Regulations

8.1 Scope

1. The Teaching and Examination Regulations in academic year 2021-2022 apply to all students enrolled in the degree programme(s) mentioned in this document.
2. With the exception of the provisions relating to teaching and student counselling, the Teaching and Examination Regulations also apply to external students (i.e. students who are not being taught at the university but who are sitting interim examinations and/or partial examinations). Where appropriate, the word 'student' may therefore also be deemed to refer to external students.
3. Circumstances not provided for by the Teaching and Examination Regulations will be dealt with by the Dean.

8.2 Adoption

1. The Teaching and Examination Regulations will be adopted on an annual basis by the dean of the faculty to which the degree programme belongs, on the recommendation and/or consent of the Degree Programme Committee and the Faculty Representative Advisory Council.

8.3 Validity and start date

1. The Teaching and Examination regulations will be valid for one academic year. In other words, Teaching and Examination Regulations from a previous academic year will not apply to a subsequent academic year. If necessary, transitional arrangements will be made for current students where rules or provisions are amended. Where transitional arrangements apply, this will be specified in article 8.4.
2. During the course of the academic year, the Teaching and Examination Regulations may only be amended in the event of force majeure and provided that the result is not unreasonably disadvantageous for students. Interim changes will be decided by the dean. If this concerns a part on which approval is based, the Faculty Representative Advisory Council or the Degree Programme Committee will be consulted. For intermediate changes in the testing programme, article 3.1, paragraph 2 also applies.
3. The Teaching and Examination Regulations are effective from 1 September 2021.

8.4 Transitional arrangements

not applicable.

9 Testing programmes

In this chapter the testing programmes are listed.

9.1 Propedeutic phase

Testing programme propedeutic phase

9.2 Main phase (including specialisations and minors)

Testing programme main phase

9.3 Fast track programme

Testing programme fast track

9.4 Three-year fast-track programme for school-leavers at pre-university level

Testing programme three-year fast-track

9.5 Special tracks

Testing programme special tracks

9.6 Modules with limited validity

List of modules with limited validity

10 Definitions of terms

For the purpose of these regulations the terms below are defined as follows:

- **academic year:** the period starting on 1 September and terminating on 31 August of the following calendar year, or in the case of enrolment on 1 February, the period starting on 1 February and terminating on 31 January of the following calendar year;
- **assessment:** the assessment by an examiner of the extent to which a student or external student has met the requirements set for a particular course or part thereof;
- **Associate degree programme:** a programme as referred to in Section 7.8a of the WHW with a study load of at least 120 credits;
- **Code of Conduct for Student Counsellors:** the Amsterdam University of Applied Sciences/ Hogeschool van Amsterdam Code of Conduct for Student Counsellors, approved by the Executive Board on 8 May 2008;
- **competency:** an integral whole of professional knowledge, attitude and skills that a person needs to be able to function well within the relevant professional frameworks;
- **course (or module):** an educational unit as referred to in Section 7.3 of the WHW which, together with other courses, forms the study programme curriculum, to which an examination is linked. Every course concludes with partial examinations or an interim examination;
- **course catalogue:** the digital information source containing all relevant information on the degree programme and the modules. In case of conflicting information the between the Teaching and Examination Regulations and the course catalogue, the information of the Teaching and Examination Regulations applies.
- **credit:** the unit in which the study load is expressed as referred to in Section 7.4 of the WHW, whereby 60 credits are the equivalent of 1,680 study hours; One credit is the equivalent of 28 study load hours. Within a broader European context, credits are expressed in EC (European credits). Credits will only be awarded upon the successful completion of a course or if an exemption has been granted by the Examination Board;
- **Dean:** head of the faculty offering the study programme;
- **electives:** courses that are part of the study program, whereby the student can choose from different courses;
- **enrolment quota:** a fixed number of places allocated to a degree programme for which the number of applications exceeds the number of available places;
- **examination:** final element of a study programme as referred to in Section 7.3 of the WHW or the propaedeutic year as referred to in Section 7.8 of the WHW;
- **Examination Appeals Board:** board as referred to in Section 7.60 of the WHW;
- **Examination Board:** the board as referred to in Section 7.12 of the WHW;
- **examination programme:** overview of all interim and partial examinations for all courses in the propaedeutic phase and main phase, specifying (at minimum) the following details, testing format for the first and second interim or partial examination, the number of credits, the block or week during which the interim or partial examination was administered;
- **examiner:** the person as referred to in Section 7.12c of the WHW, not being a student or external student;
- **Executive Board:** the institutional administration as referred to in Sections 1.1 and 10.8 of the WHW;
- **faculty:** the organisational unit in which education is offered;
- **fast track programme:** a Bachelor's programme in which the full number of credits is offered and assessed within a shorter space of time, for instance 240 credits within three years;

- **final assignment:** the final product of a unit of study on the basis of which one or more of the exit qualifications of the degree programme are assessed;
- **final qualifications:** description of the study programme's final attainment level;
- **fraud:** an act as referred to in article 4.6 of these Regulations;
- **graduation track:** the combined units of study on the basis of which the exit qualifications of the degree programme are assessed, such as a final assignment and/or an internship;
- **honours programme:** excellence programme in the form of a special track for students in the 3rd and 4th years of the main phase of a study programme;
- **inspection:** the moment at which an exam and the work done by students are discussed in the presence of an examiner.
- **integrated resit:** one interim examination instead of two or more partial examinations that constitutes the second examination opportunity.
- **institution:** the Amsterdam University of Applied Sciences/ Hogeschool van Amsterdam (hereinafter referred to as the 'AUAS/HvA');
- **interim examination:** a test of knowledge, insight and skills as referred to in Sections 7.3 and 7.10 of the WHW, of which the result is expressed in an assessment concluding a course; An interim examination may be divided into two or more separate partial examinations;
- **international student:** a student of non-Dutch nationality who – to the extent the student concerned is subject to residency permit requirements and has been issued with such a residency permit – will pursue, is currently pursuing or has pursued a programme of study at an education institution established in the Netherlands;
- **joint propaedeutic year:** the first year of a degree programme approved by the Executive Board in which several CROHO degree programmes offer students a joint programme during the propaedeutic year;
- **main phase:** the phase of the study programme that follows directly after the propaedeutic year (post propaedeutic year stage);
- **module (or course):** an educational unit as referred to in Section 7.3 of the WHW which, together with other courses, forms the study programme curriculum, to which an examination is linked. Every course concludes with partial examinations or an interim examination;
- **nominal study period:** the nominal study period of the main phase of a bachelor is 3 years.
- **partial examination:** a partial exam is part of an interim examination to which a partial assessment (partial mark) is attached. No credits (EC) can be awarded on the basis of a partial examination. No rights can be derived from the partial mark. The credits are awarded if the entire module has been completed with a satisfactory result. The (final) assessment of the module is a decision with legal effect against which an appeal is possible;
- **plagiarism:** an act as referred to in article 4.4 of these Regulations;
- **practical assignment:** exercises that can only take place under supervision during scheduled meetings, and which are aimed at acquiring a practical professional skill, and which are examined within the relevant module;
- **programme:** the interconnected whole of educational units administered by the study programme;
- **Programme Committee:** the Programme Committee as referred to in Section 10.3c of the WHW;
- **programme manager:** the individual charged with day-to-day management of the study programme;
- **propaedeutic phase:** the foundation year phase of the study programme as referred to in Section 7.8 of the WHW;
- **Representative Council:** the council as referred to in Section 10.25 of the WHW;
- **SIS:** Student Information System;

- **specialisation:** a specialisation within the study programme as referred to in Section 7.13 of the WHW, other than a minor;
- **special track:** track, other than the three-year vwo track - as referred to in Section 7.9b of the WHW;
- **student:** a person who is enrolled at the institution as a student as referred to in Section 7.32 of the WHW;
- **Students' Charter:** the charter as referred to in Section 7.59 of the WHW;
- **student counsellor:** a person appointed by the institution to inform and advise prospective and current students, the Dean, the study programme management and the Examination Board on student affairs and to counsel students in problems of a personal nature on request;
- **study adviser:** a person designated by the study programme to supervise students in academic, decision-making and planning processes, with the aim of facilitating effective academic progress;
- **study load hour:** one 1,680th part of the nominal study load of one full academic year;
- **study programme:** a Bachelor's programme as referred to in Section 7.3a, paragraph 2a of the WHW;
- **testing committee:** a committee as defined in Section 10 of the Examination Board Regulations; the committee advises the Examination Board on the quality of testing;
- **three-year fast-track programme for school-leavers at pre-university level:** a fast-track programme as referred to in Section 7.9a of the WHW with a study load of at least 180 credits;
- **track:** a degree programme approved by the Executive Board which differs from the registered CROHO Bachelor's programme offering the track, commencing from the propaedeutic year. The same diploma and the same final qualifications apply to the Bachelor's programme and track;
- **weighted average:** a calculation of the average final mark that also factors in the number of credits associated with the relevant units of study;
- **WHW:** The Dutch Higher Education and Research Act (*Wet op het Hoger Onderwijs en wetenschappelijk Onderzoek*, WHW);
- **working days:** workings days are based on the yearly schedule of the AUAS/HvA. Saturdays, Sundays, holidays and mandatory days off are non-working days. Part-time programmes may indicate Saturdays as working days.

Important notes to the Exam programme of ISMB 2021-2022

Re-exams:

Re-exams always take place in the quarter following the quarter in which the first exam takes place, except in case of quarter 4: in this situation the re-exam will take place later in quarter 4 after the first attempt, or after the summer break, in August.

SEQUENTIAL ORDER

1. The delivery "attendance" includes the following:
 - 100% attendance and good preparation of the lesson, including reading literature and doing homework assignments;
 - Good attitude during the lesson. The study guide specifies the above and during attendance, the students will work on management skills.
2. Theme Internship main phase 1 and the first-year phase (propaedeutic exam) must be completed in order to start with the theme internship main phase 2 and 3.
3. Students may commence the semester Business/Entrepreneurship (including the Texel week) if they:
 - have obtained a minimum of 100 credits, or;
 - cannot obtain a minimum of 10 credits per semester.
4. When doing the graduation project in the Netherlands the total number of missing course credits from the main phase (excluding the final work placement) may not exceed eight to start with the graduation project, and in addition the courses research 1, 2,3 and 4 and the consultancy challenge must be completed
5. Doing the graduation project abroad: there are no outstanding course credits from the main phase (excluding the final internship) to start with their graduation project.
